STEALTH®
Vent Tube Metal Detector

KEY FEATURES:

- Contact Reporter Software Included
- USB Updateable Firmware
- Detailed USB Data Collection
- Digital Signal Processing Technology
- Ultra Sensitive Detection
- AutoTest: Self Diagnostic Testing
- Easy "Fast" Calibration
- Flash Memory Stability
- Multi-Level Password Protection
- Easily Installed on Most Conveyors

OVERVIEW:

Stealth Vent Tube metal detectors are custom manufactured to integrate into any bottling application. The Stealth detects Vent Tube and Fill Tube nozzles and metal contaminants in filled plastic or glass bottles of up to 3liters/6.5pints capacity. The built-in data collection software with USB data transfer establishes the Stealth as an effective critical control point complying with stringent HACCP regulations and auditor requirements.

APPLICATIONS:

- Water
- Juice
- Pop
- Beer
- Wine
- Beverages

Don't See Your Application? Please Contact Us!

THE FORTRESS ADVANTAGE:

- *"Never Obsolete"* Commitment: detectors are always supported with parts and services
- Standard electronics configuration across product line allowing easy support and trouble shooting
- Modular design; have fewer components
- Custom built detectors or stock sizes
- *Simple Operation, Outstanding Reliability, Exceptional Performance*

AVAILABLE ADD-ONS:

- Multiple Detector Control
- Ethernet Contact Manager

STEALTH®
Vent Tube Metal Detector

Portable Control Panel Remotely Mounted

Powerful Digital Signal Processing (DSP) Technology

Product Library Stores Multiple Product Settings for Easy Recall

Multi-Level Password Protection

180mm X 250mm (w X h) / 7" X 10" (w X h) Inspection Surface

Compatible with Existing Plastic and Stainless Slat Conveyors

User-Friendly Multi-Language Control Panel Interface

USB Port for access to QA Reports, Configuration and Firmware Updates

Automatic QA Testing and Calibration

Dual Power / Frequency with Auto-balance and Ultra-sensitivity levels

Enclosed Stainless Steel Casing for Washdown Applications

Designed to be Retrofitted into Existing Bottling Lines

DETECTOR OPTIONS & SPECIFICATIONS:

Construction	304 Stainless Steel, 316 Stainless Steel
Wash Rating	Nema 4X / IP69K
Remote Mounting	Display panel terminal mounted remotely
Multiple Detector Control	One Stealth display panel can operate several detectors
Bottle Size	Up to 3liters / 6.5pints / 0.8gallons - *Contact Us if this does not suit your needs*
Network Communications	Ethernet via Contact Communications Software, Ethernet/IP, OPC UA
Electrical	100-240v Single phase, 1amp, 50-60Hz

Simple Operation.   Outstanding Reliability.   Exceptional Performance.
